

Autumn Workshop Agenda

Thursday 17th October from 9:30 a.m.

Sheraton Hotel Athlone

9:30 – Welcome

9:40 – Unit 4 update

Unit 4 will advise on the progress of upgrading customisations for the Irish Market, and for cloud readiness

10:15 – Revenue Commissioners Update

The Revenue Commissioners will give an update on any new initiatives or requirements for Irish customers, this is always a popular segment in IAUG workshops as it gives our members an opportunity to meet with Revenue Commissioners staff face to face and raise issues. Revenue can also give advance warning of changes coming, such as ePSWT and eNLWT in previous years.

11:15 – Tea/Coffee Break

11:45 – Gareth Ennis – Heycentric

Hexcentric are a Unit 4 partner and will be replacing Income Manager/Revenue Collection within Agresso in advance of moving to the cloud. If you use income manager, RC03, RC03B.. etc. in Agresso, you need to see this demonstration!

12:40 – IAUG AGM

The AGM for IAUG is important as it ensures openness and transparency of IAUG. Annual accounts will be presented, the chairman will present a summary of activities for the year, and Council membership will be open for debate. If you are interested in joining IAUG as a Council member please reach out to secretary@iaug.ie or stuart.calton@limerick.ie for details.

13:00 – Lunch

14:00 – Planner, Information Browser, & Analyser

Presentation by Unit 4 with Niall Cremin Munster Technical University on practical side of Information Browser and Analyser

Information Browsers and Analysers: One of the biggest challenges to transferring to the cloud, and therefore the web, is encouraging users to use Information Browsers in Agresso Web instead of what we're all used to; i.e. Right Click, Open Browser and F9/F7. Here Niall will demonstrate the practical use of information browsers in Munster Technological University

If you use the existing GL budgeting module in Agresso, you'll need to move to PLANNER. Here Unit 4 and an existing Irish User of Planner will demonstrate the practical side of planner.

14:45 – Breakout Sessions

Option A: Open discussions on Commitment Accounting, Budgeting and Reporting in Agresso following in from previous sessions, and any other process or topic.

Option B: Update for Local Government Sector from LGMA and Hennessy ITC on Cloud Migration status/project plan.

15:45 – Close
